

Project Testing

Courier Management System (CMS) | Salesforce Administrator with AI Agentforce | Mazharul Uloom College (Autonomous), Ambur

1. Test Approach

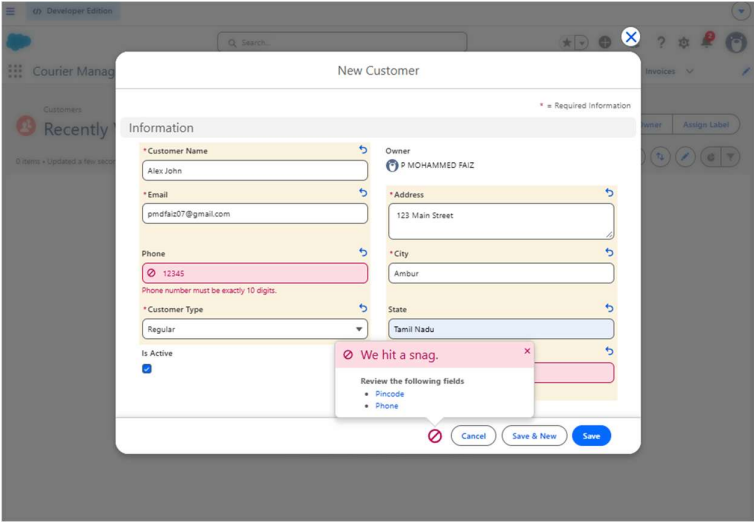

Manual functional testing in the Salesforce Lightning UI, in the Developer Edition org, using the Courier Admin user. Each test has one screenshot as evidence.

2. Test Cases and Results

ID	Feature	Steps	Expected result	Proof	Status
TC-1	Customer phone validation	New Customer; enter phone 12345; Save	Save blocked; "Phone number must be exactly 10 digits." on Phone	SS-1	Pass
TC-2	Shipment weight validation	New Shipment; enter weight - 2.00; Save	Save blocked; error on Weight field	SS-2	Pass
TC-3	Delivery update / flow	Create Delivery Update with status In Transit for SHIP-0001	Update saves as UPD-0001; parent shipment moves to In Transit	SS-3	Pass
TC-4	Invoice creation	Create invoice for SHIP-0001 with amount, date, status	Invoice INV-0001 saves and links to SHIP-0001	SS-4	Pass
TC-5	Analytics dashboard	Open Courier Management Dashboard; click Refresh	Donut, bar and revenue charts display data	SS-5	Pass

Result: 5 of 5 test cases passed.

3. Screenshot Evidence

SS-1: Customer validation blocks a phone number that is not 10 digits

Information

Tracking Number

* Customer: Maaz M G

Delivery Agent: Search Delivery Agents...

Status: --None--

Branch: Search Branches...
